

## Trees in Bass Gardens - species planted before 1940

November 2001

Recorded by Dr Robert Boden

Species	Common name	No. of trees	D/E	Comments
<i>Calocedrus decurrens</i>	Incense cedar	2	E	
<i>Cedrus atlantica</i>	Atlas cedar	40	E	
<i>Cedrus deodara</i>	Deodar	25	E	
<i>Cupressus arizonica</i>	Arizona cypress	7	E	Most are <i>C. arizonica</i> but some have hybrid characters
<i>Eucalyptus bicostata</i>	Eurabbie	8	E	
<i>Fraxinus oxycarpa</i>	Desert Ash	15	D	A poor form of the species
<i>Fraxinus pennsylvanica</i>	Red ash	17	D	Street tree in Durville Cres
<i>Prunus cerasifera</i>	Flowering plum	41	D	Most are overmature, some young replacements
<i>Quercus ilex</i>	Holly oak	23	E	Perimeter planting
<i>Quercus robur</i>	English oak	3	D	
<i>Robinia pseudoacacia</i>	Black locust	4	D	Remnants of original street tree planting
<i>Acacia baileyana</i>	Cootamundra wattle	2	E	
<i>Acacia implexa</i>	Lightwood	1	E	Close to <i>Eucalyptus bicostata</i>
<i>Callitris endlicherii</i>	Black cypress	1	E	
<i>Eucalyptus pauciflora</i>	Snow gum	1	E	
<i>Fraxinus</i> 'Raywood'	Claret ash	3	D	
<i>Fraxinus ornus</i>	Manna ash	1	D	
<i>Fraxinus</i> sp	Ash	1	D	
<i>Platanus orientalis</i>	Oriental plane	1	D	
<i>Quercus palustris</i>	Pin oak	3	D	
<i>Ulmus parvifolia</i>	Chinese elm	43	Semi-D	Replacement street tree species for <i>Robinia</i>

**Bass Gardens Grassland Flora****1. Exotics - weeds**

Recorded by Sarah Sharp, Senior Plant Ecologist  
Wildlife Research and Monitoring  
28 November 2001

* <i>Parentucellia latifolia</i> (Common Bartsia)	R
* <i>Arctotheca calendula</i> (Cape weed)	R
* <i>Erodium cicutarium</i> (Common Stork's Bill, blue flower)	R
* <i>Nassella neesiana</i> (Chilean Needlegrass)	C
* <i>Salvia verbenaca</i> (Wild sage)	O
* <i>Trifolium</i> (Clover)	C
* <i>Hypochaeris radicata</i> (Flatweed or Cat's Ear)	C
* <i>Plantago lanceolata</i>	C
* <i>Vulpia</i> spp. (Rat's Tail Fescue)	C

Subsequently added by others

- *Salvia verbenaca* (wild sage)
- *Eleusine tristacha*
- *Erodium cicutarium* (Common Storks Bill)
- *Datura* sp
- *Bromus hordeaceus* (Soft Brome?)
- Mallow
- Wireweed
- *Hypochaeris radicata* (Flatweed)
- *Panicum capellare*

**2. Native**

<i>Bothriochloa macra</i> (Redleg Grass)	C
<i>Carex inversa</i> (Knob sedge)	R
<i>Chloris truncata</i> (Windmill Grass)	R/A?
<i>Chrysocephalum apiculatum</i> (Yellow Buttons)	O (P/c)
<i>Convolvulus erubescens</i> (Australian Bindweed)	R
<i>Cymbonotus lawsonianus</i> (Austral Bears-Ear)	R
<i>Danthonia carph.</i> (Wallaby Grass)	A
<i>Danthonia</i> spp. (Wallaby Grass)	A
<i>Elymus scaber</i> (Wheatgrass)	R
<i>Glycine tabacina</i> (Vanilla Glycine)	O
<i>Goodenia pinnatifida</i> (Scrambled Eggs)	O
<i>Microlaena stipoides</i> (Weeping Grass)	O
<i>Oxalis</i> corn.	R
<i>Plantago varia</i>	O
<i>Rumex brownii</i> (Swamp Dock)	R
<i>Solenogyne dominii</i>	O

Stipa bigeniculata (Tall speargrass)	A	
Stipa falc.		A
Themeda australis (Kangaroo Grass)		C
Triptilodiscus pygmaeus (Austral Sunray)		O
Vittadinia cuneata (Fuzzy New Holland Daisy)		R
Vittadinia muelleri (Narrow Leaf New Holland Daisy)		O (P/c)
Wahlenbergia spp. (Bluebell)		R

Subsequently added by others

Tricoryne elatior (Yellow Rush Lily)  
Chielanthus sieberi (to be confirmed)  
Austrostipa bigeniculata (Kneed speargrass)  
Portulaca oleracea  
Enneapogon nigricans

A = abundant  
C = common  
O = occasional  
R = rare  
\* = exotic species
